# Product Guide

## 2021-22

Elmdene International Limited is a world class manufacturer of electronic products for the Security, Access Control, Fire, Intruder and CCTV industries.

Established in 1963 with our manufacturing plant based in Portsmouth on the south coast of England, our range continues to grow with the introduction of new products designed to meet the changing needs of the industry, customers and end users.

Our aim is simple: to provide customers with cost-effective, innovative and high quality products backed by first class and ongoing support, whenever our customers need it.

## Elmdene Accreditation

We are accredited to BS EN9001 for our quality management system and compliant to ISO 14001 for environmental management. We work to meet the requirements of quality and technical standards around the world.

## Green Credentials

Being environmentally friendly is a key consideration, at Elmdene we understand this and actively build in energy efficiency into our products.

Our switch mode power supply units are typically 80-87% efficient. This is a significant difference that can help save your customer money while helping them meet their own green commitments.

We are also committed to ensuring that we live up to our own green philosophy. We strive to be as environmentally friendly as we can in everything we do. As a result we are compliant to **ISO 14001**

Elmdene is also committed to comply with the requirements of the **WEEE (2012/19/EU)** and **RoHS (2011/65/EC)** EU Environmental Directives.

# Over 50 Years of Innovation

With over 50 years of experience in designing and manufacturing Security products, Elmdene is a reliable choice for product development and bespoke solutions.

Elmdene have earned a great reputation from partnerships, bringing comprehensive technical knowledge, manufacturing expertise, high quality, and first class project management to each unique solution brought to market.

## In-House Capabilities

- ✓ In-house **Design Team**
- ✓ **Concept** and **3D Modelling**
- ✓ **Quick** to react
- ✓ Experts in **Power Supply design**
- ✓ Bespoke and innovative **solution provider**
- ✓ **Reliability** is key to all designs
- ✓ Dedicated **technical support**

*If you have any OEM or bespoke requirements please contact us to discuss further*

# Power Supply Enclosures

A range of box sizes are available for Elmdene power supplies. Use the table below to identify the box size for your application.

- As standard, boxed power supplies are made from powder coated steel and finished in white
- Some units are available in polycarbonate IP66/IP68 rated boxes
- Unboxed modules can be lug or DIN rail mounted (dependent on model)

| Box Reference | Dimensions (mm)       | Enclosure Type      | Lid Type |
|---------------|-----------------------|---------------------|----------|
| A             | 200 H x 230 W x 80 D  | Powder Coated Steel | Hinge    |
| B             | 330 H x 355 W x 80 D  |                     | Clam     |
| B2            | 380 H x 334 W x 85 D  |                     | Hinge    |
| C             | 275 H x 330 W x 80 D  |                     | Hinge    |
| D             | 500 H x 400 W x 80 D  |                     |          |
| E             | 420 H x 400 W x 80 D  |                     |          |
| F             | 380 H x 230 W x 75 D  |                     |          |
| G             | 440 H x 250 W x 115 D |                     |          |
| H             | 420 H x 420 W x 180 D |                     |          |
| J             | 185 H x 200 W x 53 D  |                     |          |
| K             | 325 H x 350 W x 105 D |                     |          |
| L             | 100 H x 150 W x 65 D  |                     | Clam     |
| M             | 182 H x 182 W x 90 D  |                     | IP66     |
| P             | 250 H x 150 W x 100 D | IP68                |          |
| Q             | 200 H x 200 W x 100 D | IP66                |          |
| R             | 410 H X 390 W x 86 D  | Powder Coated Steel | Clam     |
| S             | 345 H x 288 W x 90 D  |                     |          |
| T             | 300 H x 240 W x 60 D  |                     | Hinge    |
| V             | 515 H x 478 W x 146 D |                     |          |

Why not make your product stand out with the **Custom Designed Enclosure** and **Branding** services available. See pages 46 & 47 for more information.

KEY: ○ = Option available

Also suitable for **Access Control** and **Intruder systems**

### Overview

This range has a regulated highly stable output supplying full rated current to load, plus additional battery charge and a universal mains voltage input charging (90 to 264V ac).

### Features

- 13.8V dc output
- Full rated current to load + 0.5A battery charging
- Modular construction means easy maintenance and upgrading
- Cost effective switch mode
- Front tamper protection
- Energy efficient
- Available in boxed and unboxed
- Battery leads now included with unboxed models
- 3 year warranty

| Part Number | Amp Rating | Dimensions                          | Will Fit Battery Size |

Also suitable for **Access Control**  
and **Intruder systems**

## Overview

Ideal for applications requiring mains and battery monitoring with fault outputs in addition to battery deep discharge protection.

## Features

- 13.8V dc output
- Full rated current to load + 0.5A battery charging
- Mains and battery monitoring
- 2x Volt free fault outputs
- Low battery warning
- Battery deep discharge protection
- Front and rear tamper protection
- Battery leads now included with unboxed models
- 3 year warranty

### Overview

Standard range of 24V dc power supplies with closely regulated output and universal mains input designed for general purpose applications.

### Features

- 27.6V dc output
- Full rated current to load + 0.5A battery charging
- Boxed and un-boxed versions
- Electronic overload protection
- Universal mains input
- DIN rail mount option 1A & 2A models
- Battery leads now included with unboxed models
- 3 year warranty

### Overview

A range of power supplies featuring a selectable 12V / 24V dc output to suit your required application.

### Features

- Output selectable between 12V and 24V dc
- 4A/2A, 6A/3A, 8A/4A options at 12V/24V dc
- 7Ah or 17Ah battery options
- Mains fail relay fault output
- Independent ancillary relay
- Tamper protection
- 3 year warranty

**Overview**

12V and 24V low profile flashing beacons utilising efficient LED technology for indoor and outdoor use.

**Features**

- 12V and 24V dc versions
- Red, Blue, Amber and Clear lens options
- Twin thread or single threaded stud options
- 1Hz flash rate
- IP66 rated
- 3 year warranty

Ideal for the safe keeping of important Fire & Security system documents & log books.

**A4 Document Boxes**

**Overview**

A4 boxes formed from white powder coated steel with cam lock, whilst the slightly larger version also offers a bulldog clip for securing documentation.

**Features**

- All units are keyed alike
- Provided with 2 keys
- 5 year warranty

| Part Number     | Dimensions           |
|-----------------|----------------------|
| A4-DOC-BOX      | 300 H x 235 W x 50 D |
| A4-DOC-BOX-CLIP | 390 H x 250 W x 50 D |

**Lockable Keypad Enclosure**

**Overview**

Used for control panel keypads, a robust white powder coated steel enclosure designed to provide physically restricted and controlled access to keypads that are mounted in open access environments.

**Features**

- Lockable lid with removable key
- All units are keyed alike
- Pre-drilled internal mounting plate
- Hinged lid
- Left or right handed mounting applications
- 5 year warranty

| Part Number    | Dimensions           |
|----------------|----------------------|
| ELM-KEYPAD-BOX | 190 H x 205 W x 55 D |

**For Fire Document Boxes** refer to page **27**

**Branding available** see page **47** for more information

### Fused Output Modules

#### Overview

These fused output modules can be used to provide 4 or 8 individually fused outputs from a single PSU output.

#### Features

- 4 or 8 individually fused outputs
- Health indicator
- Individual health LEDs and PTC options on request
- Ideal for CCTV and Access Control applications
- DIN rail version
- 3 year warranty

| Part Number | Dimensions          |
|-------------|---------------------|
| FOM4        | 60 L x 50 W x 33 D  |
| FOM8        | 94 L x 66 W x 33 D  |
| FOM8-DIN    | 134 L x 84 W x 35 D |

### PSU Interface Relay

#### Overview

To control the output of a power supply by a remote source such as a fire alarm control panel. Available in two versions, it can be used in conjunction with any 12V dc or 24V dc PSU.

#### Features

- Multiple trigger options
- Stand alone device - easily installed within an existing PSU
- LED indication of relay status

| Part Number | Dimensions         |
|-------------|--------------------|
| PSUIR-12    | 51 H x 60 W x 23 H |
| PSUIR-24    |                    |

### Fire FOM

#### Overview

This range provides independent fused outputs which can be controlled by means of either a Volt Free contact (N/O or N/C) or a low voltage signal (12V dc/24V dc), such as a fire alarm panel output.

#### Features

- Multiple Trigger configurations
- Contact rating: 10A @ 12Vdc
- Each output selectable for switched or permanently on

| Part Number   | Dimensions            |
|---------------|-----------------------|
| FIREFOM-12-4  | 4 way 12V Fire Relay  |
| FIREFOM-12-8  | 8 way 12V Fire Relay  |
| FIREFOM-12-12 | 12 way 12V Fire Relay |
| FIREFOM-24-4  | 4 way 24V Fire Relay  |
| FIREFOM-24-8  | 8 way 24V Fire Relay  |

Some part numbers within these ranges may be subject to MOQs

### Mains Relay Timer

#### Overview

A mains switching relay controlled from a 12V source with optional 2 – 40 minute timer for timed on or off function.

#### Features

- Timer or input follow modes
- Timed on or off option
- Pulse or latched trigger modes

| Part Number | Dimensions           |
|-------------|----------------------|
| MRT01       | 124 L x 100 W x 45 D |

### Multi Purpose Relay

#### Overview

Provides two sets of relay changeover contacts capable of being driven from a normal 12V supply or low current trigger input.

#### Features

- Switch load up to 1A at 24V dc
- Low current consumption
- Supplied with sticky feet for fixing

| Part Number | Voltage | Dimensions         |
|-------------|---------|--------------------|
| MPR001      | 12V     | 72 L x 26 W x 20 D |
| MPR002      | 24V     |                    |

Some part numbers within these ranges may be subject to MOQs

# Access Control Solutions

## Access Control Power Supplies

|                            |   |   | ACCESS range | ACCESS-UL range | POE-ULTRAPOD |

KEY: ○ = Option available

### Features

- 13.8V dc output
- Compact, single and multi-controller enclosures
- PCB mounts supplied for common controllers
- Mains fail fault output (excluding ACCESS-PSU-N)
- Tamper protection
- Switchable 12V / 24V dc versions available
- Universal 90 to 264V ac mains input range
- Bespoke models and branding available
- 3 year warranty

\*Removal of "adaptor" plate required

### TIP!

Add a **Fire FOM** to control individual outputs with an external signal such as a fire alarm. See page 15 for more information.

Some part numbers within these ranges may be subject to MOQs

## Features

- Certified to UL294
- Compact, multi-controller enclosures
- PCB mounts for common controllers
- Unique enclosure design
- Front & rear enclosure tamper
- Mains Fail relay output
- Independent ancillary relay (8A version)
- Full rated current to load + 0.5A battery charging
- LED Fault indication

## Use PoE to power 12V Access Control and CCTV equipment

### PoE UltraPod™ Ultra PoE Splitter

- ✓ PoE to 12Vdc Converter
- ✓ Provides up to 3A for 12V IP equipment
- ✓ Plug & Play installation
- ✓ On-board battery charger
- ✓ DIN rail mountable
- ✓ Boxed versions available

**Save time and money with the PoE UltraPod™**  
- the unique PoE powered device that provides high power for critical IP systems such as Access Control, over a single Ethernet cable.

**AVAILABLE NOW!**

| Part Number      | Description   | Dimensions           |
|------------------|---|----------------------|
| POE-ULTRAPOD-MOD | POE++ splitter DIN mountable module with battery charging and 12V 3A output   | 40 H x 125 W x 85 D  |
| POE-ULTRAPOD-B   | POE++ splitter with battery charging and 12V 3A output in a tampered metal enclosure capable of housing 1x access control board and 1x 12V 17Ah SLA battery | 334 H x 380 W x 85 D |

## Features

- Converts PoE input to 12Vdc output
- Provides 12V dc, up to 3A to the device with an additional 0.5A for battery charging (PoE++ required)
- Offers battery back-up on loss of input PoE power
- Boxed unit has fixing points for commonly used access control boards
- Provides remote fault monitoring outputs:
  - > PoE Input failure
  - > Battery Low
- Data pass through for IP connections
- Powered remotely by:
  - > PoE++ (PoE 802.3bt)
  - > PoE+ (PoE 802.3at)
  - > PoE (PoE 802.3af)
- 3 year warranty

## PoE Accessories

| Part Number       | Description                                 |
|-------------------|---|
| ELM-UPOE-SWITCH-8 | 8-Port Ultra PoE Ethernet Switch (Max 380W) |
| ELM-UPOE-INJ-8    | 8-Port Ultra PoE Injector Hub (Max 400W)    |
| ELM-UPOE-INJ-16   | 16-Port Ultra PoE Injector Hub (Max 600W)   |
| ELM-UPOE-INJ      | Single port Ultra PoE Injector (Max 60W)    |
| ELM-POE-INJ       | Single port PoE Injector (Max 15W)          |
| ELM-POE+INJ       | Single port PoE Injector (Max 30W)          |

AMS-EBIR4-BG

AMS-EBIR5-RG

## Overview

The Infra-red request to exit devices designed for use in access control systems and provides a contactless means of requesting entry/exit.

## Features

- New extended range
- "Touch-free" operation
- 12V – 24V dc operation
- Adjustable latch time and IR detection range

| Part Number     | Item   | Dimensions          |
|-----------------|--|---------------------|
| AMS-EBIR3-RG    | Stainless steel, surface mount design, with Red/ Green LED | 86 H x 86 W x 15 D  |
| AMS-EBIR-BOX-SS | Brushed Steel Metal Surface box                            | 32mm                |
| AMS-EBIR-BOX    | Chrome Effect Plastic Surface box                          | 28mm                |
| AMS-EBIR4-BG    | Large surface mount design, with Blue/ Green LED           | 260 H x 80 W x 28 D |
| AMS-EBIR5-RG    | Discreet surface mount design with Red/ Green LED          | 80 H x 80 W x 28 D  |

### Overview

These ranges of switch mode power supplies have been designed specifically for fire systems and are certified to EN54-4:1997, A1:2002 & A2:2006.

### Features

- 27.6V dc output
- Intelligent battery charging and monitoring - utilises Elmdene Eco- Charge technology
- Remote fault signalling
- Full rated current to load plus additional current for battery charging
- Serial communication available for OEM applications on request
- 3 year warranty

| Part Number             | Amp Rating | Dimensions            | Will Fit Battery Size |

EN54-4:1997, A1: 2002, A2: 2006

*Some part numbers within this range may be subject to MOQs*

## NEW!

### Overview

A range of power supplies specifically designed for fire alarm systems and certified by VDS (VdS 2541) to EN54-4 and for AOV systems to EN12101-10 by AFNOR.

### Features

- 1A, 2A and 5A versions
- 7Ah, 12Ah, 24Ah, 38Ah, 65Ah battery options
- Exterior Engineers Diagnostic LED, allowing for faster system diagnosis
- Dual outputs allow for compliant remote installation, from control panel (Dual Path) or used as two independent monitored outputs.
- Additional battery box available for 5A models

| Part Number | Amp Rating | Dimensions            | Will Fit Battery Size |

| BATT-BOX-65 | N/A        | 534 H x 465 W x 267 D | 2 x 12V 65Ah          |

### Approvals & Certification

**EN54-4/ A2** - "Fire detection and Alarm Systems": Certified by VDS  
**EN12101-10** - "Smoke and Heat control systems": Certified by AFNOR

### CONTACT US!

To discuss our French market approved **NF-508, NF S 61-940, EN54-4 and EN12101-10 STV Power Supply Range**

*Some part numbers within this range may be subject to MOQs*

## Overview

Designed for fire and access control applications that require control of the power supply output. For example, to power door retainers, with a link to the fire panel in order to switch off the output to the doors in the event of a fire alarm activation.

All models are now configurable for Fail Safe operation, complying to BS7273.

## Features

- 27V dc nominal output
- Remote control of output
- Choice of switching options:
  - Closing of a normally open Volt-free contact
  - Opening of a normally closed Volt-free contact
  - Removal of an external 24V dc supply
- BS7273 Compliant
- Mains transient protection
- 3 year warranty

| Part Number | Amp Rating | Dimensions           |
|-------------|------------|----------------------|
| TRS1        | 1.0        | 185 H x 200 W x 53 D |

| Part Number | Amp Rating | Dimensions           |
|-------------|------------|----------------------|
| TR2         | 2.0        | 200 H x 230 W x 80 D |
| TR4         | 4.0        |                      |

Note: This range is not suitable for use with standby batteries.

Some part numbers within this range may be subject to MOQs

## Fire Signalling Interface

### Overview

A fully monitored signalling interface for use in installations where fire and intruder systems signal via a shared communication device. It provides independent access for fire and intruder engineers.

### Features

- Two separate compartments giving physical segregation
- Both sections are independently monitored for tamper
- Shunt key switch function
- 3 year warranty

| Part Number | Dimensions           |
|-------------|----------------------|
| FSI-01      | 107 H x 170 W x 40 D |

## A4 Fire Document Box

### Overview

Document boxes ideal for the safe keeping of important Fire system documents & log books. Formed from red powder coated steel with cam lock. The box is branded for Fire applications with a white 'Fire' logo.

### Features

- Branded for Fire applications
- A4 and Lever Arch versions available
- All units are keyed alike
- Provided with 2 keys
- 5 year warranty

| Part Number       | Dimensions           |
|-------------------|----------------------|
| A4-DOC-BOX-R-FIRE | 300 H x 235 W x 50 D |

See page **14** for full Document Box Range

**IP rated enclosures** for outdoor use and **Rack Mounted** options

## Overview

A wide range of boxed power supplies designed for CCTV applications offering single and multiple fused outputs, including IP rated (external) options.

## Features

- 12V dc output
- 2A, 4A, 8A, 16A, 18A and 20A options
- 18A Rack mount model
- Plastic IP Rated models
- Options for multiple fused outputs
- Supplied with glass output protection fuses
- Maintenance free PTC fuse options upon request
- 3 year warranty

| Part Number     | Amp Rating | Dimensions                          | Fused Outputs |

Technology

## Overview

A range of energy efficient encapsulated power supplies specifically designed for CCTV applications. Units come fitted with either a UK (part numbers ending EB) or Euro (part numbers ending EE) mains plug. All models are available with a universal 2.1mm dc output jack socket.

## Features

- Regulated 12V dc output
- 1A to 5.0A versions available
- UK or European mains plug
- 2.1mm dc output plug
- 4 and 8 way splitter versions available (see table)
- 2.1 to 2.5mm adaptor available
- 3 year warranty

| Part Number        | Amp Rating                       | UK/Euro Plug | 4-Way Output Splitter | Dimensions (Main body) |

## Overview

Designed for CCTV applications featuring both 24V ac and dc units including IP rated options.

## Features

- 24V ac and 24v dc options
- Metal boxed or plastic IP rated enclosure
- 2A, 4A, 6A, 8A and 16A models
- Single and multiple fused output
- 3 year warranty

## DC Models:

### Overview

Specifically designed for Intruder system applications where compliance to EN50131-6 is required.

### Features

- Grade 2 and 3 compliant options
- Mains fail / battery fault monitoring / low output
- Range of battery and enclosure options
- Deep discharge battery protection
- EN50131-6 compliant
- 3 year warranty

### Approvals & Certification

GEN2 Compliant with EN50131-6:2017, Kiwa Certified

GEN3 Compliant with EN50131-6:2017, Kiwa Certified

\*Meets the requirements of EN50131-6

Some part numbers within this range may be subject to MOQs

**Rapier**

A range of stainless steel sounders that fully meet the requirements of EN50131-4:2019 Grade 3 and 4.

**Features**

- Low power operation: 10mA standby, 180mA full alarm
- Environmental class IV
- Battery and Piezo self-test with fault output

| Part Number | Grade | Sound Output at 1M | Dimensions           |
|-------------|-------|--------------------|----------------------|
| RAPIER-G4S  | 4     | 113dB(A)           | 342 H x 221 W x 55 D |
| RAPIER-G3S  | 3     |                    |                      |
| RAPIER-G3W  |       |                    |                      |

**Approvals & Certification**

- PD6662:2017
- EN50131-1:2006
- EN50131-4:2019
- EN61000-6-3

See page **37** for the **INCERT** approved **RAPIER-6510**

*Some part numbers within these ranges may be subject to MOQs*

INT400 & 600

INT500

### Inter Range

This range of internal sounders is available in three versions:

- Alarm only
- Alarm & Exit/Entry
- Alarm, Exit/Entry & Strobe

Each with or without internal battery for SAB or direct operation. 12V dc, with tough polycarbonate cover and backplate.

### Approvals & Certification

- PD6662:2017
- EN50131-1:2006
- EN50131-4:2019

| Part Number | Grade | Description  | Sound Output at 1M | Dimensions           |
|-------------|-------|--|--------------------|----------------------|
| 400         | 3     | Alarm only   | 110dB(A)           | 110 H x 160 W x 40 D |
| 400(S)      | 2     | Alarm only with NiCad battery for SAB operation                    |                    |                      |
| 500         | 3     | Alarm & Entry/Exit sounder with strobe                             |                    |                      |
| 500(S)      | 2     | Alarm & Entry/Exit with strobe and NiCad battery for SAB operation |                    |                      |
| 600         | 3     | Alarm & Entry/Exit sounder   |                    |                      |
| 600(S)      | 2     | Alarm & Entry/Exit sounder with NiCad battery for SAB operation    |                    |                      |

### Magna

The Magna G3 external siren has been designed for the European security market and is certified to EN50131-4:2019 Grade 3.

#### Features

- Environmental Class IV
- Silent start up
- Battery monitoring with fault output
- 5 year warranty

#### Approvals & Certification

- EN50131-1:2006
- EN50131-4:2019
- EN61000-6-3
- NFa2P 3 Shield Approved

| Part Number | Grade | Sound Output at 1M | Dimensions           |
|-------------|-------|--------------------|----------------------|
| MAGNA-F     | 3     | 105dB              | 350 H x 200 W x 75 D |

### Rapier-6510

A stainless steel sounder that fully meet the requirements of EN50131-4:2019 Grade 3.

#### Features

- Low power operation: 10mA standby, 180mA full alarm
- Environmental class IV
- Battery and Piezo self-test with fault output

#### Approvals & Certification

- PD6662:2017
- EN50131-1:2006
- EN50131-4:2019
- EN61000-6-3
- INCERT (RAPIER-6510)

| Part Number | Sound Output at 1M | Dimensions           |
|-------------|--------------------|----------------------|
| RAPIER-6510 | 113dB(A)           | 342 H x 221 W x 55 D |

*Some part numbers within these ranges may be subject to MOQs*

### SI500

A robust European style internal siren designed for use in domestic and commercial applications.

### Features

- 12V dc operation
- 116db(A) sound level
- Grade 2, Environmental Class II
- Robust steel enclosure
- Selectable 15/30 min timer
- 3 year warranty

| Part Number | Sound Output at 1M | Dimensions           |
|-------------|--------------------|----------------------|
| SI500       | 116dBA             | 192 H x 183 W x 55 D |

### Approvals & Certification

- NFA2P (2 Shield)
- EN50131-4

*Some part numbers within these ranges may be subject to MOQs*

# Magnetic Contacts - Grade 1, 2 and 3

## Magnetic Contacts

For use with wired alarm systems, to protect windows, doors and roller shutters.

Elmdene have a vast range of Grade 1, 2 and 3 magnetic contacts, in Metal or Plastic, Flush or Surface mount, to suit the application.

### Grade 3 Metal and Plastic Contacts Flush mounted or Surface mounted Contacts.

|   | Part Number | Grade | Env/Class | Type           | Potted/Terminal | Metal/Plastic | Operating Gap (mm) | Resistors | Dimensions (mm)         |

### Overview

The EN range of junction boxes feature a high reliability spring action micro switch for the lid tamper providing real peace of mind when connecting the tamper to the junction box.

### Features

- Shrouded spring action microswitch tamper
- Clamp style terminals (except EN3-JB9-HD)
- IP67 rating for EN3-JB9-HD
- Accommodates various wiring systems:
  - cable
  - trunking
  - conduit
- 5 year warranty

## Custom Designed Enclosures

Elmdene now offer a bespoke OEM enclosure service. Our team are on hand to work with you on implementing a completely individual design for metal enclosure housings, to meet your needs and specifications.

From concept to production, Elmdene will support at every stage to ensure the enclosure meets the requirements of your product. Whether you need it to suit outdoor or indoor applications, wall-mounted or rack-mounted; our service will provide a solution that will help bring your product to market.

Elmdene can offer a **Cost Effective** solution and **Short Lead Times** - typically 6-8 weeks (from design sign-off to delivery).\*

If you have a special requirement, please contact us to see how we can work together.

*\*MOQs apply and Lead Times are subject to project requirements*

### Why choose bespoke?

#### Designed to your specification

Our specialist design team will develop your enclosure to suit the requirements and application of your product, to any size, colour or shape.

#### Save money on development costs

Using our bespoke services will save time and money on developing a bespoke enclosure in-house and will free up your internal resources

Have your products branded with your own company logo

Elmdene offer a vinyl labelling or printing service for most PSUs and Sounders, giving your products a professional look to enhance your company's branding.

All branding is done in-house by our specialist technicians who have expertise in printing the most intricate of logos.

Please contact us to find out more about this service.\*

### Benefits of Branding Products with your Logo

- **Builds customer recognition and loyalty**  
Customers are more likely to choose a brand they recognise.
- **Provides competitive advantage**  
Attracts attention of potential customers.
- **Premium image**  
Projects an image of quality and reliability in your products.

\*Subject to MOQs. Logo artwork to be supplied in compatible format.
