

Approximate Operating Distances (mm) on Non Ferrous Surfaces

х	Min Close	12mm
	Max Open	35mm
Y	Min Close	10mm
	Max Open	33mm

Mounting on a ferrous surface will reduce these figures, dependant on the material and thickness.

<u>Specifications</u>				
Switch		Housing		
Contact Material:	Rhodium & Ruthenium	Material:	High Impact Polystyrene	
Contact Rating:	500mA @ 12Vdc	Contact Dimension (mm):	85 x 25 x 21	
Contact Resistance:	100 milliOhms	Contact Fixing (mm):	72mm centres	
Temperature Range:	-15° C to +40° C	Magnet Dimension (mm):	85 x 18 x 21	
Life Expectancy:	>1,000,000 cycles	Magnet fixing (mm)	40 centres	

Environmental Advice.

This product is covered by current WEEE regulations. Please consider the effect on the environment when disposing of it. Do not put in a domestic waste bin. Only dispose of at an appointed recycling centre.

This product is designed to meet the requirements of EN50131-2-6:2008 Security grade 3 environmental class II

SC570/*/MD/MULTI/G3 Magnetic Surface Contact. * colour varies

Operating and Installation Instructions

Description

This contact is a modern stylish magnetic door contact that can be used in most security systems up to and including grade 3 as specified in EN50131-1: 2006 and is compliant to EN50131-2-6:2008 and environmental class II (for use indoors). It operates as a EOL circuit, changing the resistance value when the magnet housing is moved away from the contact housing. This contact can be used on windows and doors to detect the unauthorised entry of an intruder. A number of applications are shown below. The contact is protected against tampering with the option of detection of removal from its mounting surface if required. Additionally there is a magnetic interference detection circuit for signalling the proximity of a magnet, which typically would be used by an intruder trying to inhibit the performance of the contact. This function is a mandatory requirement for grade 3 installations.

CQR Security. 125, Pasture Road, Moreton, Wirral. CH46 4TH, United Kingdom

Tel: +44 (0) 151 606 9595 Support: +44 (0) 151 606 6311 email: info@cqr.co.uk Web http://www.cqr.co.uk

Mount the magnet housing by removing the cover and use the two available screw holes. In the event of the magnet housing affecting the magnetic interference detection circuit, we advise moving the magnet further away so that the alarm switch is activated in normal operation. 2
