

Expandable 50 zone control panel

The i-onG2SM is a Grade 2 control panel with 10 zones on board, expandable to 50, and feature-packed to deliver you real benefits. Built with cyber security in its DNA the i-onG2SM is SecureConnect™ Cloud and App enable.

Decimal expansion system

Expanders have 10 zones in addition to the 10 zones on the end station. It provides 25% more zones per expander than traditional 8 zone expanders. A 30 zone radio expander is also available.

Performance bus

Fit up to 20 bus devices: expanders, keypads or power supplies.

Semi-auto addressing

Prevents address duplication for bus mounted devices, saving hours of installation diagnostic time.

Audible bus device tracing

Locate any bus device quickly and easily. Reduce the time taken to complete maintenance and service calls.

At a glance...

- Ten zones expandable to 50
- 50 user codes
- SecureConnect™ enabled
- Range of keypad options
- App for end user control and notification
- Common programming across the range
