

# 12V Blue Xenon Strobe

Part No. **XSB**

## Overview

A blue 1A Xenon strobe designed to be used in conjunction with an SDM strobe driver module to provide visual indication of a ringing SigTEL Type A (fire telephone) or Type B (disabled refuge) outstation.

1 Watt power output.

Small, compact design.

Can also be used on security intruder systems.

## Technical Specifications

|                                  |  |
|----------------------------------|--|
| Compatibility                    | C-TEC's SigTEL Emergency Voice Communication System. |
| Type                             | Xenon strobe.  |
| Flash rate & colour              | 100 per minute; Blue                                 |
| Power requirements               | 12V DC (via a separate 12V PSU).                     |
| Activation current               | 160mA.   |
| Alarm voltage                    | 6-12V DC.  |
| Product dimensions (mm)          | 60mm diameter x 68mm deep.                           |
| IP Rating                        | IP41.  |
| Weight                           | 75g.   |
| Operating conditions/temperature | -5°C to +40°C. Max relative humidity: 95%.           |
