

Datasheet

CDV-PC7 - Power/bus combiner

Product description

The CDV-PC7 is a power/bus combiner unit for the 2EASY 2-wire video door entry system.

It is designed to provide power and communications across the bus for the door station and internal monitor.

It can support up to 4 monitors and 4 entry panels and other 2EASY accessories on a single user system.

Note: The CDV-PC7 supersedes the CDV-PC6.

Key features

- Easy plug in bus connection
- Standard AC input/full range
- Multi protection: short circuit, overload & over current
- Integrated PSU and DPS
- DIN rail mounting

 Certification

 DEEE

 Certification

 -10°C to 50°C

Input Specifications

Input voltage: 100-240Vac

Input frequency: 50-60Hz

SW port input voltage: max 230Vac, 1.5A

Output Specifications

Rated output voltage: 28Vdc + 2Vdc

Rated output current: 1.5A
